For Immediate Release

Toledo, OH- December 15, 2010

New Assisted Living

Alpine House of Toledo had an open house on Wednesday, December 15, 2010. The assisted living facility anticipates admitting residents as soon as January of 2011. It houses 31 units; 26 studio and 5 one-bedroom units. It has a total capacity of 36 residents. The property is located on 2901 Tremainsville Road.

The approximately 17,000 sq.ft. proudly boasts a small community that will offer the best in assisted living services in the area. Amenities include ample common areas, a TV room, a sauna/ Jacuzzi room, a library, a chapel, a therapy/ exercise room, and a general store for immediate need items. Mr. Tim O' Brien, CPE, the architect on the project, also points out that the facility stands out as a glowing example of rehabilitation of a property that had limited use in the past. The facility was a result of renovation on the building that housed Golden Haven nursing home a few ago and was used as the main office of the Westhaven group more recently.

About Us

Alpine House of Toledo is an affiliate company belonging to the SAI Group. The Group owns and operates seven home health offices serving 21 counties in Ohio, and several commercial and residential real estate properties in and out of Ohio.
